Calling all Bachelor's and Master's Students in STEM:
Learn more about Singapore's diverse research ecosystem and unlock doors to an array of resources to advance your scientific career.

Agency for Science, Technology and Research (A*STAR) is Singapore's lead government agency for science and technology. A*STAR drives mission-oriented research and advances scientific discovery and technological innovation through 17 research institutes while collaborating with the wider research community and other public sector agencies.

Take your first step in exploring these opportunities with A*STAR:

- **Singapore International Pre-Graduate Award (SIPGA)**
2 to 6-month research attachment at A*STAR with stipend
- **Singapore International Graduate Award (SINGA)**
a fully funded 4-year PhD at A*STAR and/or Singapore universities.
